BISBEE, ARIZONA, SATURDAY MORNING, NOVEMBER 12, 1904.

NO. 155

PORT ARTHUR RUMORS NOT CONFIRMED

LONDON GETS NO CONFIRMATION AND ST. PETERSBURG KNOWS NOTHING OF REPORTS.

NO CHANGE AT MUKDEN

Cossacks Doing Splendid Work There. Skirmishing Is Continuing, But Big Guns Are Silent—Rebuke for Lansdowne—33,000 the Russian Loss in Battle Shakh River.

London, Nov. 11.—No confirmation has reached London of rumors current on November 10th of the capitulation of Port Arthur, or of the rumor that Gen. Sioessel was asking for an armistice, etc.

SUGGESTION OF ARBITRATION IGNORED IN RUSSIA.

On the Other Hand Rebuke Is Delivered to England for Seemingly Premature Remarks.

St. Petersburg, Nov. 11.—It is considered significant that the Russian newspapers ignore Lord Lansdowne's suggestion regarding Russian-Japanese arbitration. They appear to be more concerned with his utterances on the subject of punishment of Russian naval officers concerned in the North Sea incident, which they regard as premature, declaring it will be time enough to talk of punishment when the commission establishes their culpability.

Shakh River Losses.

St. Petersburg, Nov. 11.—Corrected casualty list of the ten days' battle of Shakh River issued by the war office, places the total killed or wounded at 33,250, of whom 900 were officers.

POSITIONS AT MUKDEN REMAIN UNCHANGED.

Under Cover of Continual Skirmishing Advantages Are Striven For.

Mukden, Nov. 11.—The positions of the armies on both sides remain unchanged, although there is continual skirmishing going on with the object of securing minor positions tending to strengthen the respective lines of defense.

The Japanese have constructed in many places double and even triple and quadruple lines of trenches, with an entanglement of wires, mines and pits.

The Cossack patrol on Nov. 10 penetrated as far as Sandiapi, where they inflicted a blow against a large force of Japanese and then returned rapidly to the Russian line without loss. Russian patrols also got in the rear of the Japanese companies moving to and returning to attack the Russian position. The Cossacks also defeated the Japs in this engagement and returned safely to the Russian lines.

WHEREVER A HEAD SHOWS IT IS FIRED AT.

Kuroki's Headquarters, via Fusan, Nov. 11.—Wherever a Russian or a Japanese exposes his head he draws the fire of an opponent. A constant exchange of shots between the outposts continues daily. The Russian casualties from sniping are large.

For the first time since the battle of the Sha River no big guns on the Russian side were fired yesterday, but there is constant rifle shooting between the Japanese and Russian trenches, which are quite near each other at many places along the front.

LOU DILLON BROKE RECORD.

Memphis, Nov. 11.—Lou Dillon smashed the world's unpaired mile trotting record at the Driving Park today by completing a mile in two minutes and one second. The former unpaired record, 2:01.12, was held jointly by Lou Dillon and Major Delmar.

ALTITUDE AND DISTANCE DO NOT INTERFERE.

St. Louis, Nov. 11.—Experimental balloon ascensions made today settle the practicability and accuracy with which wireless messages can be handled as to altitude and distance. More than twenty messages were transmitted from the World's Fair wireless station and received by the operator in the balloon. The highest point of altitude reached was estimated at about 20 miles.

EL PASO CLOSED TOWN ORDER GIVEN LAST NIGHT

El Paso, Texas, Nov. 11.—Since its existence El Paso has been a wide open town, but lately public sentiment against gambling ran so high that fifteen hundred citizens petitioned the sheriff to stop it.

Today he issued an order demanding that all gambling games close permanently at midnight. The statutes of Texas, he declares, must and shall henceforth be his guide, and all violations of the law must cease.

Stores of every description under the new order must close on Sunday, and the town will be as tight as a village in Puritan days on next Sunday.

The order caused great excitement among gamblers. They propose obedience, but will secure concession from New Mexico if possible and open a huge Monte Carlo five miles north of here. It was intended to go into Mexico, but Governor Toraz, of Chihuahua, refused permission, and has in addition ordered gambling to cease throughout his entire state.

Greene and Parry Reach El Paso

LEAVE THAT CITY FOR INSPECTION OF NEWLY ACQUIRED ROAD.

Will Visit the Great Sierra Madre Timber Tracts Before Returning. Considerable Part of Trip Will Be Made on Horseback.

El Paso, Nov. 11.—W. C. Greene and party arrived yesterday morning in the private car of the Sierra Madre, Ahumada, from La Cananea. They came in on No. 8 over the Southern Pacific and the car was immediately taken over the belt line to the city station of the El Paso Southern, from which point it left at 7 a. m. for Casas Grandes and a trip over the newly acquired road.

Several local parties joined Mr. Greene this morning and will accompany him on his journey over the Sierra Madre. Chief among these is Judge A. B. Fall, who had represented Mr. Greene in this city in the transactions of the past few months, and E. W. Meade, the general manager at Juarez.

Arriving at Terrazas, the present end of the road, the party will go overland along the proposed extension of the line to the vast timber belt which is to be tapped. It is expected that two or three weeks will be spent on the trip.

RECOGNITION OF ABILITY.

Miss Opdyke Appointed Principal of Tombstone Schools.

News has been received by Phoenix friends of Miss C. R. Opdyke, that she has been appointed to the principalship of the Tombstone schools. Miss Opdyke is well known in this city, and indeed all over the territory, as a most estimable woman and a thorough educator. There are scores of friends both north and south who will be pleased to note this recognition of her ability.

Miss Opdyke taught in the Phoenix high school last fall and went from here to Tombstone to accept the position of assistant to the principal, teaching there the rest of last year. She was re-elected for the same position this year, but Professor Berner, the principal, was recently appointed superintendent of the industrial school, leaving the vacancy that made the promotion of Miss Opdyke possible. It is pleasing to know also that she receives the same salary and emoluments as her predecessor, even though in some places less wages are paid to women instructors.

Before coming to Phoenix Miss Opdyke was principal of the Jerome school for two years, and she also taught in the Prescott high school.—Arizona Republican.

SLIPPED ON WAYS, CRUSHED TWO MEN.

Quincy, Mass., Nov. 11.—Two workmen were killed and four injured today by the sudden slipping of the blocks of a big steel barge that is being built for the Standard Oil company at the yards of the Fore River Shipbuilding Company. The dead are Louis Crump, of Newport News, and William Johnson, of Camden, N. J. Crump and Johnson were calkers, and with others were at work under the barge when she slipped and listed over on them.

The barge was nearly ready for launching, the purpose being to send her down the ways as soon as the yards were clear of the battleship New Jersey, which is to be launched within a day or so. The cause of the accident is not certainly known, but Manager H. G. Smith believes that one of the wedges had been carelessly removed.

Desertion of a Little Girl

SUCH SEEMS THE SAD SITUATION OF LEONA DOANE OF RODEO.

Goes to El Paso to Meet Her Mother, Who Fails to Show Up—Woman Recently Remarried—Husband Is Also Missing.

A small sized girl of possibly eleven years, is in distress. Her name is Leona Doane, says the El Paso News, and she arrived last night from El Paso, New Mexico, expecting to meet her mother, who was recently married to a Mr. Ed. Johnson. Little Leona does not even know her step-father; in fact she has never seen him, but when she got off of last night's train she expected her mother to meet her.

No mother was there, so small Miss Leona asked the engineer, who came in on the train with her, if he knew where her people live. She had the address of 302 West Overland street on her grip, but when taken there by the engineer the house was vacant. The engineer then took her to the police station and Captain Mitchell had a search instituted to find the small girl's relatives, but all in vain, for at last accounts no relatives had been found. The engineer took Leona to supper last night and then Captain Mitchell had her taken to the Silver City hotel, where she passed the night. She is being well cared for, but her relatives would do well to call at the police station and get her.

WOMAN KILLS AN OUTLAW.

She Establishes a Dead Line, and the Desperado Crosses Only to Be Shot Down.

Ashville, N. C., Nov. 11.—William Morrow, a noted desperado, who had been wanted for several murders and many other crimes, has been shot and killed at Burnsville by Mrs. John Phillips, a highly respected white woman. Mrs. Phillips says that she killed Morrow in self-defense.

Morrow has been persistent in his attentions to Mrs. Phillips for a long time and would take many daring risks to see her. She threatened to deliver him up to the law if he didn't cease in his attentions, but never carried her threat out. Morrow, on his last visit, threatened Mrs. Phillips. She sent him on his way, though after going a short distance from the house he turned and started back.

Mrs. Phillips says that Morrow was going to kill her. She ran in the house and procured a double-barreled shot gun. Pointing the gun at Morrow she told him that if he crossed her fence she would fire. Morrow faced the woman and the gun in a contemptuous mood and proceeded to cross the dead line. Mrs. Phillips fired twice. Both loads took effect. Morrow lived only a short time.

THREE MILLIONS IN ARIZONA COPPER.

Calumet and Hecla People Close Deal for Property Said to Rival in Production Famous Verde Mine.

Prescott, Ariz., Nov. 11.—Thomas F. Coia, James Hoatson and D. E. Woodbridge, said to be acting for the Calumet and Hecla interests in Michigan, have closed a deal for the purchase of the Copper Chief group of claims near Jerome for \$3,000,000. They were here Tuesday and negotiated for the purchase with Arthur Heudy, who represents eastern owners of the property. The Copper Chief was until recently involved in litigation with Senator William A. Clark. A compromise was effected, Clark taking half of the property, naming his share.

Kosterlitzky Talks About Sonora

SAYS THE STATE IS MAKING RAPID STRIDES TO THE FRONT.

Regarding Trouble With the Yaquis, Considers That the Indians Are Pretty Well in Hand—Nothing Serious in the Present Situation.

Douglas, Nov. 11.—"The Yaqui Indian troubles in Sonora are often greatly magnified by the American newspapers," said Col. Kosterlitzky, the commander of the Mexican rurales, a military organization operated just as the ranger service in this Territory is conducted and for similar purposes—to suppress outlawry.

"It is true," continued the Mexican officer, who rode to Douglas yesterday from his camp near Agua Prieta to visit Mr. and Mrs. Jas. Durnal, whom he knew well during their residence in Nogales, "that we have some local troubles in Sonora with the Yaqui Indians, who resent the advance of civilization in Mexico just as the Apaches resented and resisted the coming of civilization and industrial development to the west, in your country. But the Yaquis are now giving very little trouble, and as I stated, the troubles are purely local and not of a general nature nor worthy of more attention than those border officials have frequently in dealing with hard characters.

"In my command are about 130 men and officers. It is an organization very similar to the rangers of Arizona and its purposes are the same. While the Arizona rangers are for the Territory alone, my command is national in character, and may go anywhere in the Mexican country where its services may be required.

"Sonora is making wonderful strides in industrial development, and conditions of peace and order are such that no further danger may be anticipated by those desiring to engage in enterprises in that wonderfully rich country."

Col. Kosterlitzky has been for thirty years in Mexico and all that time in the military service, starting as a private. He is a man of national character in that country and is consulted by the war department on all matters coming up for serious consideration. He has been in Sonora for many years and not only helped to subdue the Apaches in that State during the troublesome times Arizona has with this breed of hostiles, but he has been a prominent figure in all the troubles with the Yaquis and gained his promotion to colonel during the Yaqui war for bravery and a display of distinguished military ability. He is known to many Arizonans and it is always a pleasure to see this grizzled old warrior.

On Vacation—Conductor Purcell, of the E. P. & S. W., has been relieved from duty for a month in order that he may enjoy a vacation during that length of time at the coast. During his absence Conductor Hawley will have the Benson run, being transferred from the Osborne run out of this city. Conductor C. F. Allgood takes the regular run of Conductor Hawley. The changes became effective yesterday.

King, on which a large smelter has been erected and is now in operation. Both the Copper Chief and the Iron King properties are said to give promise of equalling Clark's famous United Verde at Jerome. Clarke is president of the Calumet and Arizona company at Bisbee, which is next to the United Verde and Copper Queen in importance in Arizona. Hoatson and Woodbridge are stockholders in the Calumet and Hecla.

Murder Done This Morning

MEXICAN SHOT BY FELLOW ROOMER NOT EXPECTED TO LIVE TILL DAYLIGHT.

Man Who Did Shooting Promoted Arrested by Officers. Claimed to Be a Student of the University.

Esteban Cubias was lodged in jail by Officers Wilmoth and Kreigbaum at 1 o'clock this morning for shooting a Mexican whose name is said to be Gomez. The wounded man was not expected to live until daylight. At 2 o'clock his pulse was barely beating. The bullet fired by Cubias entered just over the heart and lodged near the skin at his victim's back.

The shooting occurred at a house on Chihuahua Hill near the Catholic Church, about 12 o'clock midnight. Both men roomed there. Cubias did not deny his guilt, and was identified by the dying man when taken before him by the officers.

Cubias said in a statement that Gomez had been making trouble for him and trying to get a fight for a month and that he concluded to stop it. He used a 32-caliber bull-dog revolver.

WOMAN WITH A PISTOL.

Drives Men and Women From Saloon and Is Sent to Bellevue Alienist.

New York, Nov. 11.—Waving a pistol above her head and vowing vengeance a woman went into the saloon of Tom Sharkey, the pugilist, at 6 o'clock last night and demanded to see him.

"I am going to kill him. He has told false stories about me and I will shoot him," she shouted.

Before manager Wartell could get from behind the bar the woman ran into the back room. Half a dozen women and as many men were sitting at the tables. She pointed the pistol at them and ordered them out under threat of death. All took to their heels.

Satisfied that Sharkey was not in the saloon the woman left the place. "But I'll be back, and I'll kill him!" was her parting cry.

Policeman O'Neil and Detective Wasserman arrested the woman. She said she was Mary Booth, thirty-seven years old, of No. 6 Livingston street.

"I was staying at the Putnam House in 1893," Miss Booth told the police. One day I noticed an odor of gas and traced it to Sharkey's room. I broke the door and saved him from death. Since then he has circulated false stories about me, and I want an explanation."

Miss Booth was taken to Bellevue hospital, where Dr. Gregory will examine her as to her sanity.

Sharkey denied later all acquaintance with the woman.

Morris Den, foreman of the Shattuck has gone to Los Angeles as a witness in the coming South Bisbee law suit, which is to be heard before the Supreme Court of California on the 21st.

It is stated that upon Mr. Den's return to Bisbee important developments will commence upon his group of claims adjoining the Saginaw. Mr. Den was one of the original owners of the South Bisbee, now the Lake Superior & Pittsburg, and he has been prominent in other mining ventures in this district. His contemplated exploitation of his ground adjoining the Saginaw will be watched with marked interest. That he is a mining man of good judgment is shown by his previous record in this district.

SURROUNDED BY MYSTERY IS MURDER

OF CALIFORNIA FAMILY IN MOST FIENDISH MANNER WITHOUT SEEMING CAUSE.

SHOT AND BURNED

Assassin Set Fire to Clothing of Woman and Threw Them in a Room. Son Who Escaped Intimates Dead Father May Have Committed Terrible Deed.

Auburn, Cal., Nov. 11.—It is now known that a murderous attack was made upon Julius Weber, his wife, their 19-year-old daughter Bertha, and their son Paul, aged 14 years, by an unknown assassin last night, who then set fire to the house in an effort to cover up his crime.

Before the fire had made any great headway the mother and her two children were rescued from the burning house. Bertha, the daughter, was found to be dead when taken outside. Mrs. Weber and her boy, although alive when taken out of the house, died almost as soon as they reached the air.

Examination of the bodies today showed that death in all cases had been directly caused by bullet wounds. On the boy's head, however, were several deep cuts. The girl, it is believed, was killed outright. The charred remains of the father, Julius Weber, were recovered from the burning embers after a long search today. He too, it is believed, was shot down and left with the others to be consumed by the flames.

Those who participated in the rescue at the fire last night, and who today discovered the charred and almost unrecognizable body of the head of the hapless family, have drawn the conclusion that the women, after being shot in one room, and clothing set on fire, were then dragged into the apartment where they were later discovered. This is based on the peculiar circumstance of the tragedy, that, while the bodies of the mother and daughter were burned to some extent, the apartment in which they were lying was not on fire when the firemen broke in.

Adolph Weber, 20 years old and the only surviving member of the family, left the house shortly before the crime was discovered. He says the family were in good spirits when he left, and without any premonition of the impending harm. He declares he has no suspicions and not the slightest idea how the house could have taken fire.

Young Weber says little, but to the coroner and sheriff says that he does not think the motive was either robbery or revenge. When asked if he had a theory, he said that he had, but would not give it. He admitted, reluctantly, that his father had a violent temper.

FOR PEACE CONFERENCE.

Copenhagen, Nov. 11.—The Danish government will accept President Roosevelt's invitation to participate in the second peace conference. The government considers it is particularly desirable that clearer international agreement be formulated regarding neutrality and contraband regulations. Negotiations for treaty of arbitration between United States and Denmark have been opened.

NEW POSTMASTER FOR FAIRBANKS.

(Special to Review.) Washington, Nov. 11.—Geo. L. Thompson appointed postmaster at Fairbank, vice Geo. G. McGee, removed.

HAY TO REMAIN SECRETARY OF STATE.

Washington, Nov. 11.—President Roosevelt made the announcement today that John Hay would continue as Secretary of State during the four years beginning March 4th, 1905. "You may state positively," were his words, "that Mr. Hay will continue as secretary of state up to the fourth of March, 1905." The President was asked regarding other possible cabinet changes, but indicated that there was nothing to be said at present.
